**Celebrating the Power of Women:** Chinmaya Arts and Science College Marks International Women's Day

Chala: Chinmaya Arts and Science College for Women celebrated International Women's Day on March 6th at the college auditorium. The event, which commenced at 01:30 pm, was a resounding success, with students and faculty members coming together to commemorate the occasion.

The celebration featured a costume ramp walk, where participants showcased their creativity and style. The event was followed by a flash mob performance, which added to the energetic atmosphere and promoted unity and empowerment among women.

A panel discussion was also

conducted, providing a platform for thought-provoking conversations and exchange of ideas on women's rights, equality, and empowerment.

The discussion encouraged the participants to engage in meaningful dialogue and reflect on the progress made towards achieving gender equality.

The event was a testament to the college's commitment to empowering women through education and holistic development.

The celebration was a huge success, and the college community looks forward to many more such events in the future.

## INNOCENCE LOST The Devastating Consequences of Children's Violence

Children's violence is a growing concern that threatens the very fabric of our society. As we delve into the root causes of this issue, it becomes clear that the influence of film, drugs, and other factors plays a significant role in shaping the violent behavior of children.

The glorification of violence in films and television shows can have a profound impact on children's minds. Exposure to violent media can desensitize children to the consequences of violence, leading them to view it as an acceptable means of resolving conflicts. Furthermore, the portrayal of violence as a glamorous and exciting behavior can entice children to emulate it.

The use of drugs is another significant factor contributing to children's violence. Substance abuse can alter a child's brain chemistry, leading to increased aggression and impulsivity. Moreover, children who use drugs are more likely to engage in violent behavior, such as fighting and assault.

Other factors, such as family dynamics, peer pressure, and mental health issues, can also contribute to children's violence. Children who grow up in violent or dysfunctional households are more likely to develop violent tendencies. Similarly, peer pressure and the desire to fit in with a particular group can lead children to engage in violent behavior. Mental health issues, such as anxiety and depression, can also increase a child's propensity for violence.

So, what can we do to address this issue? First, we must promote responsible media consumption habits, encouraging children to think critically about the content they watch. Second, we must provide children with positive role models and alternatives to violence, such as sports and creative activities. Third, we must address the root causes of substance abuse and mental health issues, providing children with access to counseling and support services.

By working together, we can create a safer, more compassionate world for our children. Let us join forces to prevent children's violence and ensure that our children grow up in a world where they are valued, respected, and protected.

## Celebrate Women

KK AYSHA THAMANNA

International Women's Day is celebrated on March 8th every year. It's a day to recognize women's achievements and advocate for gender equality.

International Women's Day is celebrated worldwide with rallies, events, and campaigns. It's a day to promote women's rights and equality, and to inspire people to take action and make a difference.

Despite the progress made towards gender equality, women

still face many challenges. They earn less than men for the same work, have limited access to healthcare, and are underrepresented in leadership positions.

International Women's Day is a reminder that gender equality is a human rights issue that requires collective action and commitment. It's a day to celebrate women's achievements and to continue fighting for a more equal and just society.

## Fashion Meets Sustainability

**Sustainable Creativity on Display:** First-Year Students Shine at MDC Food and Fashion Trends Exhibition

The first-year students of Chinmaya Arts and Science College for Women, Chala, organized an innovative MDC Food and Fashion Trends Exhibition, showcasing sustainable creativity and environmental responsibility.

# Protecting Innovation Understanding Intellectual Property Rights

C K SREENANANDA

The celebration took place in a beautifully decorated auditorium, with faculty, students, and distinguished guests in attendance.

## Star of the week

# Tune in to Talent

KV AFRA

**Melodic magic with Gayathri**

Chinmaya Arts and Science College has every reason to beam with pride, thanks to its talented student, Gayathri P. This young musical sensation has been making waves in the music world, and her achievements are a testament to her hard work and dedication.

Gayathri's love affair with music began at the tender age of three, and she has been diligently honing her craft ever since. Currently, she is undergoing training in Hindustani

music under the expert guidance of Anil Das Sir from Kozhikode.

But what's truly remarkable is that Gayathri has been recognized with the prestigious "Sangeetha Pradhibha" award not once, but twice - in 2024 and again in the present year.

As Gayathri continues to shine in the music world, Chinmaya Arts and Science College couldn't be prouder of its musical star.
